

EL FENIX RESTAURANT

In Mythology, the Phoenix is a bird of prey representing longevity and rebirth.. According to legend, there can only be one Phoenix at a time, it lives for 500 to 1000 years and when it dies in a fire of its own making, it is then reborn out of the ashes. Among some accounts, the Phoenix represents those living in paradise enjoying eternal youth. We chose the name El Fenix because we truly believe we are living in paradise enjoying our own eternal youth. But mostly, the name El Fenix represents our determination to succeed in life and happiness and should we failwe will rise again out of the ashes.

STARTERS

Diablo Deviled Eggs (2)	\$1.00
